

PAMMA's Response to COVID-19

The Pennsylvania Amusement and Music Machine Association (PAMMA) and its members are concerned about the health of employees, contractors, families, customers, and friends. This concern has resulted in the organization immediately calling for Pennsylvania operators to cease operating and servicing all amusement games, including skill games, in non-licensed establishments like convenience and grocery stores.

ATMs will continue to be serviced and consumers are encouraged to use proper CDC protocols when using these machines.

This decision has been communicated to all members of the organization and PAMMA encourages non-members to follow this protocol, as well.
