

Use good sense practice good hygiene

when operating machines.

Best Practices for **CUSTOMERS**

Wash your hands often with soap and water for at least 20 seconds. Use alcohol-based sanitizer if washing hands is not available.

Cough into a tissue and throw it away and wash your hands; or cough into your elbow - NOT your hand.

Disinfect machines and touch screens before and after use.

Practice social distancing by maintaining a minimum six-foot distance at all times.
